

PRANAVI

— PEB CONSTRUCTION —

Integrated Pre-Engineered Building Systems

Cost Effective • Long Lasting

www.pranavipeb.com

We at **Pranavi PEB Construction**, are actively engaged in the design, engineering, fabrication and erection of pre-engineered metal building systems.

Industries we service:

- Industrial Buildings
- Warehouses
- Office Buildings
- Showrooms
- Railway Stations
- Metro Stations
- Commercial Centers
- Recreational Centers
- Architectural Buildings
- Bridge Girders

VISION MISSION MISSION VALUES
VALUES MISSION VALUES MISSION
MISSION VISION VALUES VISION

VISION

We believe that meeting set standards is in fact the bare minimum, and hence we always strive to break the ceiling and deliver new milestones. We will deliver solutions, products and services that delight customers and redefine excellence.

MISSION

- To be prompt and proactive towards customer needs.
- To be a valued supplier of solutions, products and services through stringent adherence to quality.
- To empower employees to excel and innovate.
- To build a democratic and dignified workplace where everyone grows.
- Observe globally acclaimed best policies of corporate governance.
- Stay focused on adding advantages for our stakeholders.

VALUES

- Always honor our commitments to one and all.
- All actions directed by ethics.
- Respect & dignified treatment for every individual.
- Do not abide by waste.
- Go where you would have others follow.

More than just Steel Structures

We deliver complete building solutions

Comprehensive building solutions from engineering to erection.

Professional approach at every step of project execution.

High quality, timely delivery and optimal solution overheads.

Product Categories for your business needs

- Built-up "I" section to make primary structural framing members (columns & rafters).
- Cold-formed "Z" and "C" sections to make secondary structural members (roof purlins, eaves and wall girts).
- Roll formed profiled sheeting (roof and wall panels).
- Optional sub-systems which include mezzanine floors, crane runway beams, roof platforms, catwalks, etc.

Pre-Engineered Steel Building

Pre-Engineered Steel Building (PEB) is a steel structure built over a structural concept of primary and secondary members and the cover sheeting connecting each. The structural members are custom designed to be light in weight and high in strength. It can be fitted with different structural additions like trusses, mezzanine floors, fascia, canopies and crane systems as per user requirements.

Low Cost

PEBs optimally utilize resources, and leverage technology to the maximum. PEBs have gained a global reputation for durability, water and earthquake resistance. PEBs are tremendously versatile - they are easy to set up, expand, modify, and transport to different locations.

Quality Control

Quality Control starts with checking of raw materials for compliance. Products are inspected at all stages of fabrication for welding quality, dimensional tolerance, surface preparation and coating. All inspection records are stored on files for future reference.

Infrastructure

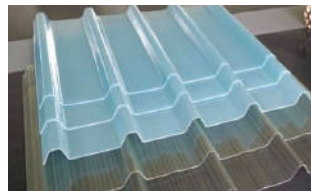

- Advanced techniques, state of-the-art computerized manufacturing facilities.
- Quick design capabilities of complex structures.
- Equipped with the latest software viz. Metal Building Software. STAAD pro for design and estimation. Tekia, AutoCAD as drafting facility.

Roofing Accessories

We have the complete package with an impressive range of Roofing Accessories designed to compliment the roofing sheets. Our accessories include Ridge Capping, Valley Gutter, and other Flashings along with turbo ventilators, Louvers, Poly Carbonate Sheets (Skylights), Fasteners, etc. A wide range of guttering, downpipe and steel fascia profiles are also available in styles to suit your requirement.

The pre-engineered steel building system in itself offers great advantages to the customer as a more feasible, practical and efficient alternative to conventional building. The system has earned acceptance across the world and is gaining footing rapidly in India as well.

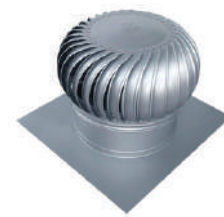

Poly Carbonate Sheets

Flashings

Turbo Ventilators

Fasteners

Louvers

Downspouts
